

Box of Frogs

Jonny's got a box of frogs. He's running all over town.
He's trying to keep a lid on things, he knows he's let people down.

We've seen it before, we know we'll see it again.
Some boys think they're the first amongst men.

History repeats itself round here.

Jonny had a box of frog, he was running all over town.

One of those frogs jumped out of the box
Before Jonny could close it down

We've seen it before. We know it'll happen again.
Some boys think they're the first amongst men.

History repeats itself round here

Jonny had a box of frogs - he knew he'd let people down.

His mother always said that given the chance,
He could have worn a crown

History repeats itself round here
History repeats, history repeats itself round here.

I grew up in a village in North Yorkshire. It seemed there was a 'bad lad' in each village. What is 'bad'? What made them 'bad'? Nowadays we know so much more about mental illness, bullying and domestic violence.

A lot of the 'bad lads' ended up dying in car or motorbike accidents.
