

Dancing Inside

When the first step is so unclear
You're not sure what to do, the future's here
The only advice I can offer is ...

Just keep on dancing inside.
It helps me to live my life
It's a coping mechanism to live, thrive, survive.

Just keep on dancing - inside.

Have you ever had your own, you own little box of sunshine?
A little bit of something, a place for a bit of 'me' time?
And if the weather won't play the game ...

Just keep on dancing inside
Keep your heart protected, keep your dreams alive!
It can be your little secret, use it for your life.

Just keep on dancing - inside.
